Third-Party Test Report

Reta 15mg Research Vial

Tested by: Janoshik Analytical
janoshik.com

Report #: **RG-TR-2026-0015**
Batch Number: **M1P5S03-2F**
Lab Task #: **108421**
Labeled Content: **15mg**

Laboratory: **Janoshik Analytical**
Testing Ordered: **02/03/2026**
Sample Received: **02/05/2026**
Analysis Date: **02/19/2026**
Verify Key: **I4B7PNUCM8RW**

Report #: RG-TR-2026-0015

Identity

Retatrutide

Peptide Purity

99.270%

Assay Results

Analyte	Specification	Result	Unit	Status
Peptide Purity (HPLC)	>= 95.0%	99.270%	%	PASS
Retatrutide Content	Report Only	15.07	mg	Reported

Reta 15mg - M1P5S03-2F

Scope of Testing

This report covers peptide purity and retatrutide content only. Heavy metals (ICP-MS), sterility (PCR), bacterial endotoxin (USP <85>) and fentanyl screening were NOT performed on this batch, and no result for them is stated or implied. Other RetaGrade lots carry a full QC panel; that scope does not carry across to this batch. Where a panel was not run, no conclusion about it can be drawn.

Notes & Methodology

1. Analysis conducted 19 February 2026 by Janoshik Analytical. Sample received 5 February 2026; testing ordered 3 February 2026.
2. Purity determined by HPLC and reported by the laboratory. RetaGrade has not restated, rounded, or recalculated any value in this report.
3. The ">= 95.0%" acceptance criterion is RetaGrade's own release specification. The laboratory reported the measured value without applying a specification to it.
4. This result can be verified independently with the laboratory at janoshik.com/verify using key I4B7PNUCM8RW.
5. This document is issued by RetaGrade. It is not a reproduction of the laboratory's own report, and it carries no laboratory accreditation mark.

RetaGrade

Issued by the supplier; analysis performed by the laboratory named above.
